<p style="text-align: center;"><b>KA210 - YOU</b> 2022-1-EL02-KA210-YOU-000083835</p>	<p style="text-align: center;"><b>YOUTH ENTREPRENEURSHIP CENTER</b></p> <p>Through this project, we aim to create a youth entrepreneurship center and provide non-formal and informal learning opportunities for the educational and vocational reintegration of NEET young people, young people with disabilities and young people with fewer opportunities. In addition, we aim to establish a network that will engage stakeholders, young people, youth workers and policy makers to contribute to the improvement of the labour systems in our countries.</p>
<p style="text-align: center;"><b>KA210 - YOU</b> KA210-YOU-20C99AEF</p>	<p style="text-align: center;"><b>Keep Dreaming</b></p> <p>This project aims to enhance the experience of social participation and volunteering of young people in community actions through the enhancement of their mental health.</p>

## Background and Experience

Please briefly present the partner organization:

Idee In Movimento is an extremely active Cultural Association. It was born on the 5th of July 2015 thanks to a group of young and dynamic friends. We are located in the small town of Giardini Naxos, the first Greek colony of Sicily. Our bay, the Bay of Naxos, is one of the most beautiful in Italy. At a distance of 2 KM, on the top of Mount Tauro, is located the famous town of Taormina, which hosted the G7 on 26th and 27th of May 2017. We are engaged in various fields, whose experience in them has allowed us to acquire the know-how for the development of activities in the field of Erasmus + program projects, giving us the opportunity to participate and develop more than 10 projects in the last 2 years.

Our activities through the years have been focused on these areas:

- **Sport Projects and Activities:** We believe that sport is a powerful tool for social inclusion, personal growth and health enhancement. Moreover, through the practice of sport, crucial values can be conveyed to athletes like tolerance, team-work, respect, self-esteem, honesty, fairness. We carried on a lot of activities as sport tournaments (Football "Don Bosco Cup" and Basketball "Idee in Movimento Cup"), "integration matches" between migrant refugees and local people, solidarity marathons, economical and organizational support to local sport associations;
- **Environment Protection:** We care a lot about our natural environment. During the years, we have done many activities such as awareness campaigns, beach cleaning. We also support, participating and creating events, to the campaign "Friday for future" and we are supporting local farmers and agriculture with the goal to create a more sustainable and green economy.
- **Volunteering:** We dedicate a lot of our time to help disadvantaged people and to back the most fragile groups within our community. For example, We participated in the fundraising campaign against cyber bullying "Fiori D'Azzurro";
- **Recreational Activities:** We are committed in creating spaces for social aggregation in our community. We organized recreational activities both for young people and elder ones in order to let them strengthen their social ties through our events (Recreational tournament as "Idee In Movimento 17" and the tournament "Ace of Naxos");
- **Cultural and Institutional Activities:** One of the main fields in which we are involved is represented by Culture and Institutional Activities. We organized several Cultural events as "Giardini di Versi e Prosa" to give recognition to the efforts of local artists. Moreover, we also organized debates among experts and open to the public about contemporary issues as "Brexit". We collaborated with the important literary festival "Naxoslegge" in 2016. In particular, we took care about the organization of several cultural events dedicated to the theme of the intergenerational dialogue. In addition, we are particularly sensible to the issue of gender violence, every year we organize a range of activities on the theme involving school and other partners;

- **The project "Batticuore Giardinese":** Between 2016 and 2017, we collaborated in what we consider one of our most important efforts. The project "Batticuore Giardinese", that through a successful fund-raising campaign and thanks to the involvement of local institutions, achieved the important objective of acquiring six defibrillation machines which are now located all over our local territory. Throughout the project, first aid techniques and methods of using the defibrillation machines were taught freely to a group of local citizens. heart stroke is the first cause of death in the world, we are really proud to have given our humble contribute to tackle this issue;

We have a very wide network of contacts at the local and international level. The association has members with different backgrounds and expertise; most of them are young people below 35 years old.

What are the activities and experience of the organization in the areas relevant for this application?

Idee In Movimento is an association made up by young people and pursuing initiatives mainly related to youth. In the last years, the association organized a lot of tournaments, debates, conferences, sport events, especially for young people. It promoted arts and culture and it promoted cultural integration involving even a group of migrants hosted in a church institute in Giardini Naxos. Sport is one of our main field of activity, we believe that sport is a powerful mean for integration; the inclusion and environment are also fields in which we invested many resources, hosting and organizing trainings of the Erasmus + program in our town, such as for the project "#populismmustnottriumph", where we analyzed the phenomenon of immigration in Italy with a focus on our region, Sicily, first port of arrival for the so called "African route", and for the project "Discover", in which we tried to develop a cultural environment open to everyone, without distinction of class or opportunities, involving in this training local farmers to promote greener and planet friendly economy, and in which we also participated and promoted activities related to the beach cleaning. Moreover, in the last period, we have started to work in the field of Adults learners, thanks to the project "Digital Creative Minds", in which the partners are aiming to create a MOOC and other useful tools to improve the digital skills of workers from the creative industries sector. We have also a wide network of contacts in this field made up by sport associations, local entrepreneurs, doctors, institutions etc. As it is possible to see in our website and in our PPT presentation, we feel we could be a reliable partner for this project.

---

What are the skills and expertise of key staff/persons you plan to involve in this application?

Dott. Fabrizio Chillemi graduated in Sciences of Communication at University of Catania, and has worked as a practitioner in a local newspaper. He has a good experience in the Erasmus + program. President of the association since 2018, has participated in many trainings of KA1 and KA2 projects, both as group leader and participant. Moreover, he participated in an ESC in Portugal in 2019/20 for 9 months. He is also a trainer and takes care of the management of the training activities in which the association is involved both as hosting and sending organization. He speaks English, Spanish and Portuguese. In the last year, he has contributed to start an association in Thailand that aims to offer to the youngsters the opportunity of discovering Europe. He has interests in the art field being a drummer and a writer.

Ilaria Chillemi graduated with the maximum votation, 100/100, at the Commercial Technical Institute of Taormina. During these years she was able to collect mother-tongue certifications of language in French and English, practicing with good results also German and Spanish. She has participated as participant and group leader in several Erasmus + training from the projects KA1 and KA2, and she can boast a public speech in representation of her institute in front of the European Parliament in Strasbourg, thanks to the project "Euroscuola". Specialized in touristic techniques, she has an artistic vocation being a singer and autodidact guitarist.
